Branch Impact: What Mergers Mean for Branch Networks

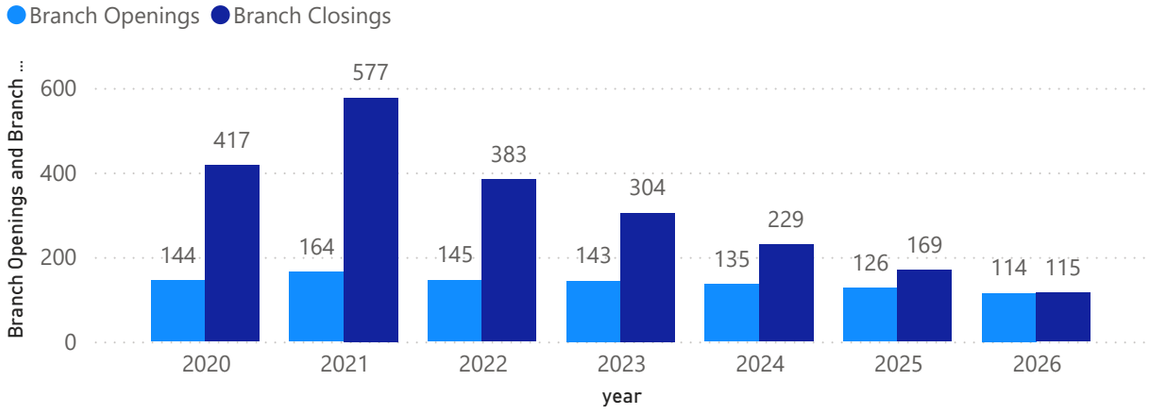

Random 1-in-8 sample of branch openings and closings, January 2020 to October 2026: compare shares and trends, not totals

Branch state

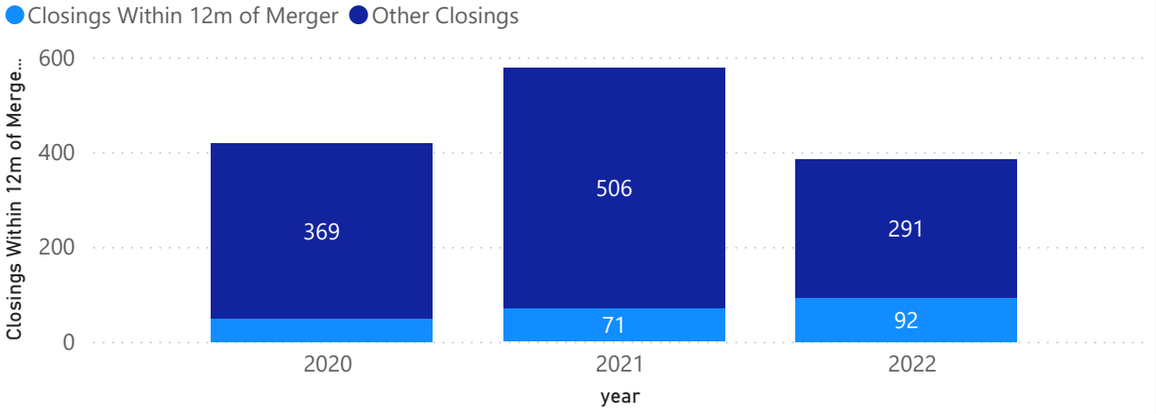

All

971	2,194	2.3	15.3%
Branch Openings	Branch Closings	Closings per Opening	Closings After Merger % (2020-22)

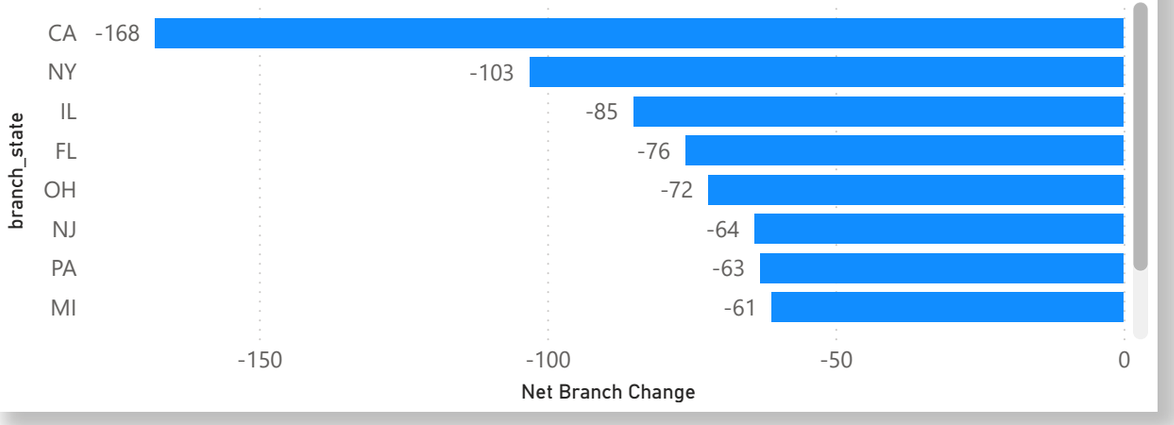

Closings per opening fell from 3.5 (2021) to 1.0 (2026)

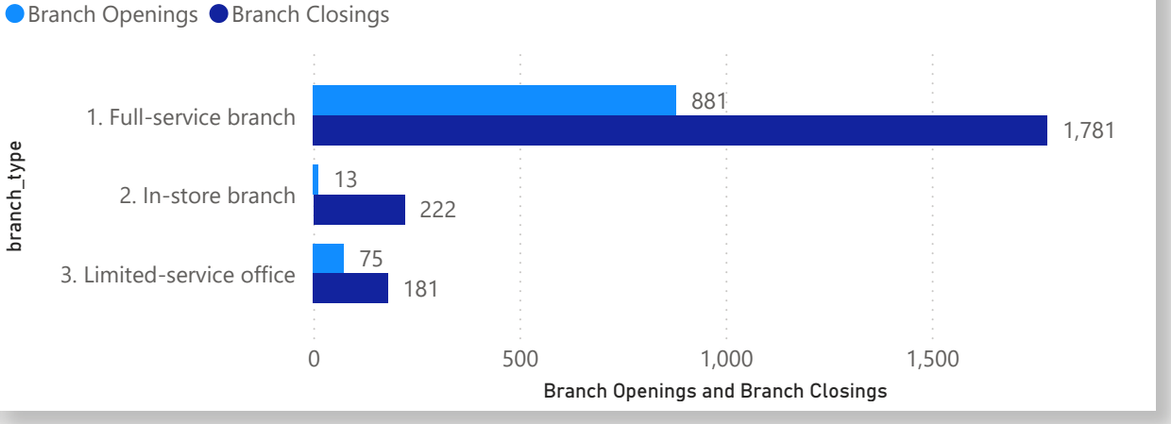

By 2022, 24% of closings came within a year of the bank's merger

California, New York and Illinois lost the most branches

In-store branches: 17 closings for every opening

Recommendation: Merger Integration Readiness Checklist

For a bank's change and integration team · built on what the FDIC data shows about mergers and branch closures

Key findings

1. Consolidation: FDIC-insured banks fell by a net 357 in 33 months. 361 were absorbed in mergers; only 28 new banks opened.
2. Bigger deals: 9 mergers (2.5%) moved half of the 4,800 acquired branches, led by PNC-BBVA USA (644) and Huntington-TCF (506).
3. Branch impact: buyers closed 81% more branches in the year after a merger, and by 2022 a quarter of all closings came within a year of a merger.
4. Who loses out: in-store branches close 17 times for every one that opens.

Readiness checklist

Data migration and reconciliation

- ☐ Map every account, position and collateral record to the new system; reconcile daily before cutover.
- ☐ Match records on stable IDs (account number, CERT, branch number), never on names.
- ☐ Run two full mock conversions and sign off every reconciliation break before go-live.

Customer communication before branch closures

- ☐ Plan branch decisions for the first 12 months after the merger, when closures cluster.
- ☐ Give at least 90 days' written notice of a closure, naming the nearest branch, ATM and digital options.
- ☐ Give extra support to customers of in-store and rural branches.

System cutover testing

- ☐ Test payments, cards and online banking end to end with converted data.
- ☐ Agree go/no-go criteria and a rollback plan; monitor complaints daily for 90 days.

KPIs to track

Accounts reconciled before cutover
Target: 100%

Open reconciliation breaks at go/no-go
Target: 0

Closure notices sent 90+ days ahead
Target: 100%

Complaints in the 90 days after the merger
Target: no rise on the 90 days before

Customers who leave within 12 months
Target: at or below the pre-merger rate

Caveats

- The download stops at 10,000 rows, so this is an extract.
- Bank-level records are complete only for Jan 2020 to Sep 2022.
- Branch records are a random 1-in-8 sample: counts understate the true totals.
- Credit unions and events recorded years late were removed.
